

## The Problem...

- The homeless population is *attracted to Miami Beach* because of the weather, the beach, public bathrooms, the safety of our streets and the by product of the tourism industry.
- Many *business owners have experienced the negative effects* of the homeless in their shops, hotels and restaurants.
- Our *property values are impacted* by the physical presence of the homeless community.
- *Tourism is affected* because of the negative stereotypes associated with the homeless.
- Residents are concerned for the *quality of life*.

*Help us*  
achieve our goal  
*by sending your*  
*tax-deductible gift to:*

H.O.P.E. IN MIAMI BEACH  
P.O. BOX 1188  
MIAMI BEACH, FL 33119
